Swiss HPB Center Zurich

- § Opening: 2005
- § Interdisciplinary Unit: Surgery, Gastroenterology/Hepatology, Oncology, Interventional Radiology
- § 17 regular beds and 4 intermediate care unit beds
- § >1200 major liver resections and
> 500 liver transplantations
50 adult living-related liver donors
- § > 700 pancreas resection
- § 248 pancreas transplantation
- § 2-3 yrs International HPB Fellowship Training Program:
12 fellows trained
- § 260 papers: NEJM, Gastroenterology, Hepatology, Lancet, Lancet Oncology, JHE, Science, Nature, etc.

Fellowship Program

- § The aim of the Fellowship program is to provide the trainee with the basic and clinical education and experience necessary for that individual to develop expertise in the understanding, diagnosis, and management (including the necessary surgical skills) in the treatment of diseases of the liver, biliary tract and pancreas.
- § The emphasis on Surgical Oncology derives directly from the spectrum of clinical activity in the program.
- § Clinical and/or translational research productivity is a vital component of the Fellowship.

Trained HPB Fellows
